Coordinated Entry for Survivors: Breaking the Cycle of Domestic Violence and Homelessness

Domestic violence is one of the leading causes of homelessness for women and their children and being unable to obtain safe, affordable housing creates a substantial barrier to safety for survivors. To help address this barrier, Interpersonal Violence Coordinated Entry was created. This training explores the prevalence of homelessness and interpersonal violence, provides insight about how the domestic violence coordinated entry protocol is confidential, survivor-centered and trauma-informed, as well as how to get survivors connected to housing supportive services. This webinar will be presented by Jaimie Riccitelli, the Coordinated Entry Specialist and Community Educator of The Mary Parrish Center.

The Truth About Trafficking: Expert Panel

In recent years, human trafficking has garnered a lot of attention as advocates and survivors seek solutions to address the issue. Unfortunately, along with this increased awareness comes misconceptions and false portrayals in news outlets and media. This panel of local service providers will debunk prevalent myths about the topic and explore various issues related to human trafficking, such as familial trafficking, links to technology, travel and immigration, and the demand associated with trafficking. The panel will include representatives from the Office of Family Safety, TN Bureau of Investigation, End Slavery Tennessee and Free for Life International.
